

⚡ TECHM270C ⚡

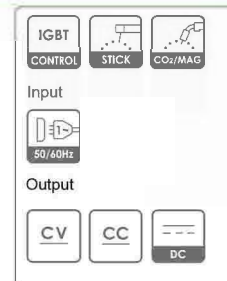

TECHM270C is full digital control and user friendly interface. MMA & MIG/MAG welding process is possible in after one installation. IGBT technology providing the energy saving and high efficiency. closed loop feedback control suitable for MS, SS & Al.

Type	Process	Standard Equipment
Multi Welder	MIG/ MMA/Lift Tig	Power Source, Mig Torch, Regulator, 3 meter earth set.

Features

- ⚡ High strength & light weight which leads improved mobility
- ⚡ Stepless voltage and feeder mounted remote to control welding voltage and wire feed speed
- ⚡ High efficiency 85% & high power factor (0.93)
- ⚡ Protection against thermal overloading, voltage fluctuations.
- ⚡ Closed loop feedback control, latest IGBT inverter technology
- ⚡ Voltage tolerance and easy to use control panel

Ordering Information

Technical Data			
Input Voltage (V)	230 VAC+/-15%	Efficiency	85%
Input Capacity (KVA)	10.35	Power Factor	0.9
Input Current (A)	34.9	Protection Class	IP23
Duty Cycle (40°)	60% @ 270 AMPS	Insulation Class	H
OCV (V)	60	Dimension	904*467*786
Output Current Range (A)	40 - 270 AMPS	Weight (Kg)	41

Optional Accessories

Mig Torch (PSF405-5)

Mig Torch (NT4-15E)

Mig Torch (N40-5)

Mig Torch (NQ400-EURO)
