

# ⚡ TECH M400 ⚡

TECH M400 is full digital control and user friendly interface. MMA & MIG/MAG welding process is possible in after one installation. IGBT technology providing the energy saving and high efficiency. closed loop feedback control suitable for MS, SS & Al.

Type	Process	Standard Equipment
Multi Welder	MIG / MMA/Lift Tig	Power Source

## Features

- ⚡ High strength & light weight which leads improved mobility
- ⚡ Stepless voltage and feeder mounted remote to control welding voltage and wire feed speed
- ⚡ High efficiency 85% & high power factor (0.93)
- ⚡ Protection against thermal overloading, voltage fluctuations.
- ⚡ Closed loop feedback control, latest IGBT inverter technology
- ⚡ Voltage tolerance and easy to use control panel

## Ordering Information

ART NO: 30WM-MIG-400

IGBT CONTROL	STICK	CO <sub>2</sub> /MAG
Input		
50/60Hz	50/40Hz	
Output		
CV	CC	DC

Technical Data			
Input Voltage (V)	415V	Efficiency	85%
Input Capacity (KVA)	15.5	Power Factor	0.9
Input Current (A)	35.4	Protection Class	IP23
Duty Cycle (40°)	60% @ 400	Insulation Class	H
OCV (V)	60	Dimension	372*220*150
Output Current Range (A)	50 - 400	Weight (Kg)	45

## Optional Accessories

Mig Torch (PSF405-5)

Mig Torch (NT4-15E)

Mig Torch (N40-5)

Mig Torch (NQ400-EURO)
